

BONUS 6 OF 6

Monthly Updates.

What "lifetime access with monthly updates" actually means for you, how new content reaches you, and a first look at what's coming next.

-  How updates are delivered — no re-purchase, ever
-  What kind of content gets added over time
-  Seasonal flavor ideas you can try right now
-  How to make sure you never miss an update

How your access works

"Lifetime access" means exactly that — the link you received when you purchased is yours permanently, and it's the same link that carries new content forward, with nothing extra to buy.

Your training, all 6 bonuses, and this updates page all live at the one member link from your order confirmation. Bookmark that page — it's the single place everything lives, today and going forward.

✓ **No action needed.** You don't need to sign up for anything separately, request updates, or check back on a schedule. When new material is added, it appears at your existing link automatically.

What kind of content gets added

A realistic picture of what "updates" means in practice, so you know what to expect.

TYPE OF UPDATE	EXAMPLE
New flavor variations	Seasonal twists on existing flavors, or new combinations built from customer feedback
Refined technique notes	Clarifications or tips added based on common questions from the community
Pricing & sourcing refreshes	Occasional updates to ingredient cost ranges as market prices shift
Seasonal promotion ideas	Timely angles for holidays and gifting occasions as they come up through the year

This bonus is intentionally the shortest one in the training — its value grows over time rather than all at once, which is exactly the point of an "updates" bonus versus a one-time guide.

SECTION 2 OF 3

Seasonal flavor ideas you can try now

A first taste of the kind of variation-based content future updates will add — built from the 25 flavors you already have.

OCCASION	TRY THIS VARIATION
Winter Holidays	Take your Cinnamon Spice flavor and add a pinch of ground clove and a light dusting of edible gold shimmer on the shell for a festive look.
Valentine's Day	Use Rich Chocolate or Red Velvet in a heart-shaped mold if you can find one, paired in a 2-piece gift set.
Mother's Day / Spring	Creamy Strawberry or Pistachio Cream, packaged in pastel-colored wrap for a softer seasonal look.
Fall	Maple Pecan or Spiced Chai, presented in a kraft box with a cinnamon stick tied to the ribbon.

No new ingredients required. Every idea above reuses a flavor already in your 25-flavor training — the "update" is in presentation and timing, which costs you nothing extra to apply today.

Never miss an update

Two simple habits keep you current without any extra effort.

1. **Bookmark your member link** from your order confirmation email — it's the single source of truth for your whole training.
2. **Check back occasionally**, especially around major seasons and holidays, when timely content is most likely to be refreshed.

Thank you for training with US.

You now have the complete Artisan Cappuccino Capsules training — 25 flavors, the full technique, and all 6 bonuses. Everything here grows with you, at no extra cost, for as long as you keep making capsules.

Go make your first batch

If you haven't already, open the main 25 Artisan Cappuccino Capsules training and start with the Essential Technique section — everything else builds from there.
