How To Use This Guide

INSIDE THIS BOOK

This guide has one essential technique you learn once, then 25 flavor pages that are each fully self-contained and can be read in any order.

HOW EACH FLAVOR PAGE WORKS

- Ingredients for a 12-capsule batch
- Equipment needed
- Numbered preparation steps
- A chef tip specific to that flavor.

GOOD TO KNOW

Read the Essential Technique section first, even if you are experienced.

Every recipe assumes tempered couverture chocolate, see Bonus 4 for sourcing.

Store finished capsules per Bonus 2 before selling.

TIP: Make one full flavor before batching multiple — it is the fastest way to learn your equipment.

1

The Essential Technique

The one method behind every
capsule in this book — learn it once,
use it 25 times.

Tempering & The Shell

WHY TEMPER

Tempering gives the shell its shine, snap, and clean release from the mold.

THE THREE TEMPERATURES

- Melt dark chocolate to 115°F/45°C over a double boiler.
- Cool while stirring to 82°F/28°C.
- Gently rewarm to 88-90°F/31-32°C, the working range.

FORMING THE SHELL

- Spoon tempered chocolate into each cavity.
- Tap the mold firmly to release air bubbles.
- Invert over the bowl to let excess drip out, leaving a thin even shell.
- Scrape the mold surface clean with a spatula.

EQUIPMENT

Heatproof bowl

Double boiler or microwave

Offset spatula

Chocolate thermometer

COOLING TIME

1

First set

10 minutes at room temperature.

2

Full set

15 minutes refrigerated.

3

Ready to fill

when shell looks matte and pulls slightly from the mold edge.

TIP:

If chocolate looks streaky or dull after setting, it was not fully tempered — remelt and start again, it costs nothing but 5 minutes.

TECHNIQUE 2 OF 2

Filling & Sealing

FILLING BASICS

Fillings are added once shells are fully set and unmolded from one half of the mold.

HOW MUCH FILLING

- Fill each half no more than three-quarters full.
- Leave a clean rim for sealing.
- Tap gently to settle powder fillings.
- Level paste fillings with a small spoon.

SEALING THE CAPSULE

- Warm the rim of each half briefly over a warm plate or with a heat gun on low.
- Press the two filled halves together firmly.
- Hold for 5 seconds until the seam sets.
- Chill 10 minutes before handling.

COMMON FIXES

CRACKED SHELL

Means chocolate was too cold when unmolding.

VISIBLE SEAM

Means rims were not warmed evenly.

CAPSULE SWEATS

Means it went from cold to warm too fast.

UNMOLDING

- 1 Flex the mold edges.
- 2 Press gently from the back of each cavity.
- 3 Catch the capsule as it releases.

TIP:

Work in a cool room — anything above 75F/24C makes both tempering and sealing noticeably harder.

BEFORE YOU START

Your Toolkit at a Glance

CHOCOLATE

Dark, milk and white couverture together unlock every flavor in this book.

CORE FILLING INGREDIENTS

- Instant coffee
- Full-fat milk powder
- Unsweetened cocoa powder
- Fine and powdered sugar

EQUIPMENT

- Silicone or polycarbonate sphere mold
- Digital scale
- Chocolate thermometer
- Small sieve and piping bag

FOR THE FULL SHOPPING LIST

- See Bonus 4, Basic Starter Materials, for exact quantities and costs.

TIP: You do not need all 25 flavor ingredients to start — the first 8 flavors in this book share the same 4 core ingredients.

2

The 25 Flavors

Every recipe below makes a 12-capsule batch and follows the Essential Technique on page 4.

Classic

DESCRIPTION

The traditional cappuccino flavor — smooth, comforting, and instantly recognizable.

INGREDIENTS

(12-capsule batch)

- 2 tbsp instant coffee, finely ground
- 3 tbsp full-fat milk powder
- 2 tbsp fine sugar
- pinch of ground cinnamon

EQUIPMENT

mixing
bowl

fine
sieve

sphere
mold

PREPARATION

1

Sift all dry ingredients together twice for an ultra-smooth melt.

2

Temper the dark chocolate per the Essential Technique.

3

Fill each shell three-quarters full with the coffee mix.

4

Seal, chill 10 minutes, then unmold.

YIELD & TIME: 12 capsules • 45 minutes

CHEF'S TIP:

Sift the mix twice — it is the single biggest difference between a gritty and a silky cappuccino.

Rich Chocolate

DESCRIPTION

Intense and irresistible — for the customer who wants dessert first, coffee second.

INGREDIENTS

(12-capsule batch)

- 3 tbsp unsweetened cocoa powder
- 2 tbsp milk powder
- 3 tbsp sugar
- 1 tsp instant coffee (enhances the chocolate).

PREPARATION

1 Whisk cocoa, milk powder, sugar and coffee until uniform in color.

2 Temper dark chocolate for the shell.

3 Fill shells generously — this filling settles less than lighter powders.

4 Seal and chill fully before wrapping.

YIELD & TIME: 12 capsules · 45 minutes

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

CHEF'S TIP: A touch of instant coffee never tastes like coffee here — it just makes the chocolate taste more like chocolate.

Milk Powder

DESCRIPTION

Smooth and delicate — the gentlest flavor in the collection, popular with children and first-time buyers.

INGREDIENTS

(12-capsule batch)

- 5 tbsp full-fat milk powder
- 2 tbsp sugar
- 1 tsp instant coffee
- pinch of salt

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

Sift milk powder and sugar together until powder-fine.

Temper milk chocolate for the shell.

Fill shells and level with the back of a spoon.

Seal, chill, and unmold gently — milk chocolate is softer than dark.

YIELD & TIME: 12 capsules · 40 minutes

CHEF'S TIP:

Add the salt — it rounds out the sweetness and makes the milk flavor taste richer, not saltier.

Malted Chocolate

DESCRIPTION

Crunchy and memorable, with a nostalgic malt-shop character.

INGREDIENTS

(12-capsule batch)

- 3 tbsp malted milk powder
- 2 tbsp cocoa powder
- 2 tbsp finely crushed malt balls
- 1 tbsp sugar

EQUIPMENT

Mixing bowl

Rolling pin
(for crushing)

Sphere mold

PREPARATION

Crush malt balls into coarse crumbs inside a sealed bag.

Combine with malted milk powder, cocoa and sugar.

Temper milk chocolate, fill shells with the malt mix.

Seal while crumbs are evenly distributed, then chill.

YIELD & TIME: 12 capsules · 50 minutes

CHEF'S TIP:

Fold the malt crumbs in last so they keep their crunch instead of dissolving into the powder.

Creamy Strawberry

DESCRIPTION

Sweet and captivating — the most photogenic capsule in the collection.

INGREDIENTS

(12-capsule batch)

- 3 tbsp freeze-dried strawberry powder
- 3 tbsp milk powder
- 2 tbsp sugar
- 1 tsp vanilla powder

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

1

Sift strawberry powder finely — freeze-dried fruit can clump.

2

Combine with milk powder, sugar and vanilla.

3

Tempering white chocolate carefully — it scorches faster than dark.

4

Fill, seal and chill fully before handling.

YIELD & TIME: 12 capsules · 45 minutes

CHEF'S TIP:

White chocolate is unforgiving with heat — keep it below 110F/43C at every stage.

Hazelnut

DESCRIPTION

Elegant and sophisticated, built on real hazelnut praline.

INGREDIENTS

(12-capsule batch)

- 3 tbsp hazelnut praline paste
- 2 tbsp cocoa powder
- 2 tbsp milk powder
- 1 tbsp sugar

EQUIPMENT

Mixing bowl

Small spatula

Sphere mold

PREPARATION

Warm the praline paste slightly so it spreads easily.

Blend with cocoa, milk powder and sugar into a thick paste.

Temper milk chocolate, spoon the paste into each shell.

Level with a spatula, seal, and chill until firm.

YIELD & TIME: 12 capsules • 50 minutes

CHEF'S TIP: This filling is a paste, not a powder — fill slightly less full than usual to leave room for sealing.

Caramel

DESCRIPTION

Sweet and rich, with a deep caramelized note.

INGREDIENTS (12-capsule batch)

- 3 tbsp caramelized sugar powder (or fine dulce de leche powder)
- 2 tbsp milk powder
- 1 tbsp cocoa powder
- pinch of sea salt

EQUIPMENT

mixing
bowl

fine
sieve

sphere
mold

PREPARATION

Sift caramel powder with milk powder and cocoa.

Fold in the sea salt for balance.

Temper milk chocolate, fill shells generously.

Seal and chill — caramel fillings set slightly firmer than others.

YIELD & TIME: 12 capsules · 45 minutes

CHEF'S TIP: A visible pinch of flaky salt on the outside of the finished capsule signals "premium" instantly.

FLAVOR 8 OF 25

Dulce de Leche

DESCRIPTION

Creamy and special — a customer favorite for gifting.

INGREDIENTS (12-capsule batch)

- 3 tbsp dulce de leche, thickened (see tip)
- 2 tbsp milk powder
- 1 tbsp cocoa powder

EQUIPMENT

mixing
bowl

small
spatula

sphere
mold

PREPARATION

1

If your dulce de leche is soft, mix in milk powder until it holds its shape on a spoon.

2

Fold in cocoa powder for depth.

3

Temper milk chocolate, spoon in the thickened paste.

4

Seal carefully — this filling is the softest in the book, chill fully before shipping or gifting.

YIELD & TIME: 12 capsules • 55 minutes

CHEF'S TIP:

If the paste is too loose, it will seep during sealing — always test-thicken with milk powder first.

Peanut Brittle

DESCRIPTION

Bold and irresistible, inspired by traditional ground-peanut candy.

INGREDIENTS (12-CAPSULE BATCH)

- 4 tbsp finely ground roasted peanuts
- 2 tbsp sugar
- 1 tbsp milk powder
- pinch of salt

EQUIPMENT

Mixing bowl

Food processor
or mortar

Sphere mold

PREPARATION

Grind peanuts until sandy, not pasty — pulse, don't blend continuously.

Mix with sugar, milk powder and salt.

Temper dark chocolate, fill shells with the peanut mix.

Tap gently to settle, then seal and chill.

YIELD & TIME: 12 capsules · 45 minutes

CHEF'S TIP: Stop grinding the moment the peanuts turn sandy — a few extra seconds and they turn into peanut butter.

Cookies & Cream

DESCRIPTION

Surprising and crunchy — always the first flavor to sell out with younger buyers.

INGREDIENTS (12-capsule batch)

- 4 tbsp finely crushed chocolate sandwich cookies
- 2 tbsp milk powder
- 1 tbsp sugar

EQUIPMENT

Mixing bowl

Rolling pin
(for crushing)

Sphere mold

PREPARATION

1

Crush cookies into coarse crumbs, keeping some texture.

2

Mix lightly with milk powder and sugar.

3

Temper white chocolate, fill shells without overpacking.

4

Seal quickly — cookie crumbs can make sealing less airtight, so chill promptly.

YIELD & TIME: 12 capsules • 45 minutes

CHEF'S TIP:

Save a few visible cookie crumbs to sprinkle on the outside of the shell before it fully sets.

Vanilla Bean

DESCRIPTION

Warm and classic, letting real vanilla lead the flavor.

INGREDIENTS

(12-CAPSULE BATCH)

- 3 tbsp milk powder
- 2 tbsp sugar
- seeds of 1 vanilla bean (or 1 tsp vanilla powder)
- pinch of salt

EQUIPMENT

mixing bowl

small knife for scraping vanilla

sphere mold

PREPARATION

1

Scrape vanilla seeds directly into the milk powder and rub together with your fingers to distribute.

2

Add sugar and salt.

3

Temper white chocolate, fill shells.

4

Seal and chill — this filling is very light, avoid overpacking.

YIELD & TIME: 12 capsules • 40 minutes

CHEF'S TIP:

Rubbing vanilla seeds into sugar or powder first prevents them clumping into dark specks.

Toasted Coconut

DESCRIPTION

Tropical and fragrant, with genuine toasted coconut texture.

INGREDIENTS

(12-capsule batch)

- 4 tbsp finely shredded coconut, lightly toasted
- 2 tbsp milk powder
- 1 tbsp sugar

EQUIPMENT

Mixing bowl

Dry skillet for toasting

Sphere mold

PREPARATION

1
Toast coconut in a dry skillet over low heat until golden, stirring constantly, then cool fully.

2
Mix with milk powder and sugar.

3
Temper milk chocolate, fill shells.

4
Seal and chill — make sure coconut is fully cooled before filling or it will melt the shell.

YIELD & TIME: 12 capsules • 50 minutes

CHEF'S TIP:

Toast the coconut a shade lighter than you think you want — it darkens further as it cools.

Pistachio Cream

DESCRIPTION

Elegant, with a naturally green hue and nutty depth.

INGREDIENTS

(12-capsule batch)

- 3 tbsp pistachio paste
- 2 tbsp milk powder
- 1 tbsp sugar

EQUIPMENT

Mixing bowl

Small spatula

Sphere mold

PREPARATION

1

Warm pistachio paste slightly to loosen it.

2

Blend with milk powder and sugar into a smooth paste.

3

Temper white chocolate, spoon in the pistachio paste.

4

Level, seal and chill fully before handling.

YIELD & TIME: 12 capsules • 50 minutes

CHEF'S TIP:

A few finely chopped pistachios pressed onto the shell before it sets make this flavor instantly recognizable.

Cinnamon Spice

DESCRIPTION

Warm and cozy — a natural favorite for autumn and winter.

INGREDIENTS

(12-CAPSULE BATCH)

- 3 tbsp milk powder
- 2 tbsp sugar
- 1 tsp ground cinnamon
- pinch of ground nutmeg

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

1

Sift milk powder, sugar and spices together until evenly colored.

2

Temper dark chocolate for the shell.

3

Fill shells and tap to settle the spice mix.

4

Seal and chill fully.

YIELD & TIME: 12 capsules • 40 minutes

CHEF'S TIP: Taste your spice mix on a spoon before filling — cinnamon brands vary a lot in strength.

Mocha Fudge

DESCRIPTION

Bold double-chocolate-coffee for the customer who wants maximum intensity.

INGREDIENTS (12-capsule batch)

- 2 tbsp instant coffee
- 3 tbsp cocoa powder
- 2 tbsp sugar
- 1 tbsp milk powder

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

Sift coffee, cocoa, sugar and milk powder together.

Temper dark chocolate, ideally 60%+ cacao for this flavor.

Fill shells generously.

Seal and chill — this is a rich, dense filling, so slow down while sealing.

YIELD & TIME: 12 capsules • 45 minutes

CHEF'S TIP: This is the flavor to feature in your "transformation video" from Bonus 3 — it makes the darkest, most dramatic cappuccino.

White Chocolate Bliss

DESCRIPTION

Sweet and silky, for customers who find dark cappuccino too intense.

INGREDIENTS

(12-capsule batch)

- 4 tbsp milk powder
- 2 tbsp sugar
- 1 tsp vanilla powder

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

1

Sift all ingredients together.

2

Temper white chocolate carefully, keeping it below 110F/43C.

3

Fill shells and level.

4

Seal and chill fully.

YIELD & TIME: 12 capsules · 40 minutes

CHEF'S TIP: Pair this with a light dusting of cocoa on the outside — the contrast in color sells it before anyone tastes it.

Toffee Crunch

DESCRIPTION

Buttery and crisp, with real toffee bits for texture.

INGREDIENTS

(12-capsule batch)

- 3 tbsp finely crushed toffee candy
- 2 tbsp milk powder
- 1 tbsp sugar

EQUIPMENT

mixing bowl

rolling pin
(for crushing)

sphere mold

PREPARATION

1

Crush toffee into small, uneven crumbs — texture is the point here.

2

Mix lightly with milk powder and sugar.

3

Temper milk chocolate, fill shells.

4

Seal quickly before crumbs settle unevenly, then chill.

YIELD & TIME: 12 capsules • 45 minutes

CHEF'S TIP:

Keep a few larger toffee pieces for the top layer — the occasional crunchy bite is what customers remember.

FLAVOR
— 18 OF 25 —

Orange Zest Chocolate

DESCRIPTION

Bright and citrusy, a sophisticated twist on classic mocha.

INGREDIENTS

(12-capsule batch)

- 3 tbsp cocoa powder
- 2 tbsp sugar
- 1 tbsp milk powder
- zest of 1 orange, finely grated and dried.

EQUIPMENT

Mixing bowl

Zester

Sphere mold

PREPARATION

1

Dry the orange zest on a paper towel for 10 minutes to remove excess moisture.

2

Mix with cocoa, sugar and milk powder.

3

Temper dark chocolate, fill shells.

4

Seal and chill — dried zest keeps this filling shelf-stable.

YIELD & TIME: 12 capsules • 50 minutes

CHEF'S TIP: Fresh (undried) zest introduces moisture that shortens shelf life — always pat it dry first.

Mint Chocolate

DESCRIPTION

Cool and refreshing, a strong seasonal seller around the holidays.

INGREDIENTS

(12-CAPSULE BATCH)

- 3 tbsp cocoa powder
- 2 tbsp sugar
- 1 tbsp milk powder
- 1/8 tsp peppermint extract, mixed into a pinch of sugar to disperse.

EQUIPMENT

Mixing bowl

Small dropper for extract

Sphere mold

PREPARATION

Mix peppermint extract into a small pinch of sugar first so it disperses evenly, not in one spot.

Combine with cocoa, remaining sugar and milk powder.

Temper dark chocolate, fill shells.

Seal and chill fully.

YIELD & TIME: 12 capsules • 45 minutes

CHEF'S TIP: Peppermint extract is very concentrated — start with less than you think, you can always make the next batch stronger.

FLAVOR

— 20 —

OF 25

Butterscotch

DESCRIPTION

Rich and buttery, a close cousin of caramel with its own identity.

INGREDIENTS

(12-capsule batch)

- 3 tbsp butterscotch chips, finely ground
- 2 tbsp milk powder
- 1 tbsp sugar

EQUIPMENT

Mixing
bowl

Food processor
or mortar

Sphere
mold

PREPARATION

Grind butterscotch chips to a fine powder.

Mix with milk powder and sugar.

Temper milk chocolate, fill shells.

Seal and chill until fully set.

YIELD & TIME: 12 capsules · 45 minutes

CHEF'S TIP: *If the ground butterscotch feels slightly oily, chill it for 5 minutes before filling — it packs more evenly cold.*

Roasted Almond

DESCRIPTION

Nutty and toasted, with a satisfying bite.

INGREDIENTS

(12-CAPSULE BATCH)

- 4 tbsp finely ground roasted almonds
- 2 tbsp sugar
- 1 tbsp cocoa powder

EQUIPMENT

mixing
bowl

food processor
or mortar

sphere
mold

PREPARATION

Toast almonds if not already roasted, cool fully, then grind coarsely.

Mix with sugar and cocoa powder.

Temper dark chocolate, fill shells.

Seal and chill fully before handling.

YIELD & TIME: 12 capsules • 50 minutes

CHEF'S TIP:

Leave the almonds slightly coarse rather than powder-fine — the texture is part of the flavor here.

Red Velvet

DESCRIPTION

Fun and festive, a visual showstopper for gift kits.

INGREDIENTS

(12-capsule batch)

- 3 tbsp milk powder
- 2 tbsp sugar
- 1 tbsp cocoa powder
- food-safe red powder coloring, a small pinch

EQUIPMENT

mixing bowl

fine sieve

sphere mold

PREPARATION

1

Sift milk powder, sugar and cocoa together.

2

Add red coloring gradually to the dry mix until you reach the shade you want.

3

Temper white chocolate, fill shells.

4

Seal and chill — for extra effect, tint a small amount of extra white chocolate red and drizzle on top before it sets.

YIELD & TIME: 12 capsules · 55 minutes

CHEF'S TIP:

Use powder coloring, not liquid — liquid coloring can seize melted chocolate.

Tiramisu

DESCRIPTION

Coffee-mascarpone inspired, an elegant dessert-shop flavor.

INGREDIENTS

(12-capsule batch)

- 2 tbsp instant coffee
- 2 tbsp milk powder
- 2 tbsp powdered sugar
- 1 tbsp mascarpone powder or extra milk powder.

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

1

Sift all dry ingredients together until uniform.

2

Temper milk chocolate, fill shells.

3

Seal and chill fully.

4

Dust the finished, unwrapped capsule lightly with cocoa powder for the classic tiramisu look.

YIELD & TIME: 12 capsules · 50 minutes

CHEF'S TIP:

The cocoa dusting at the end is what makes this flavor instantly recognizable in photos.

Maple Pecan

DESCRIPTION

A warm autumn flavor, rich with real maple and toasted pecan.

INGREDIENTS

(12-capsule batch)

- 2 tbsp maple sugar (or fine brown sugar)
- 3 tbsp finely ground toasted pecans
- 1 tbsp milk powder

EQUIPMENT

Mixing bowl

Food processor or mortar

Sphere mold

PREPARATION

Toast pecans lightly, cool completely, then grind coarsely.

Mix with maple sugar and milk powder.

Temper milk chocolate, fill shells.

Seal and chill — this filling has natural oils from the pecans, so chill fully before wrapping.

YIELD & TIME: 12 capsules • 50 minutes

CHEF'S TIP: Maple sugar dissolves differently than white sugar — taste-test the mix before committing to a full batch.

FLAVOR
25 OF 25

Spiced Chai

DESCRIPTION

Aromatic and warming, closing the collection with a bold spice blend.

INGREDIENTS

(12-capsule batch)

- 3 tbsp milk powder
- 2 tbsp sugar
- 1/2 tsp ground cardamom
- 1/2 tsp ground cinnamon and a pinch of ground clove

EQUIPMENT

Mixing bowl

Fine sieve

Sphere mold

PREPARATION

1 Sift milk powder, sugar and spices together thoroughly — spices need to be evenly distributed.

2 Temper dark chocolate for the shell.

3 Fill shells and tap to settle.

4 Seal and chill fully before wrapping.

YIELD & TIME: 12 capsules · 45 minutes

CHEF'S TIP: Let the finished capsules rest a full day before selling — the chai spices deepen and round out overnight.

Thank You

You now have all 25 flavors and the complete technique behind every capsule in this training. The rest is practice — your first batch will not be your best, and that is exactly how it should be.

BEFORE YOU START SELLING

- Read Bonus 1 for real pricing.
- Read Bonus 2 to store your first batch correctly.
- Read Bonus 3 before your first post.
- Keep Bonus 5 on hand for every kit you package.

ARTISAN CAPPUCINO CAPSULES
