

BOOTIE MASTER · OTO 2 · MY CROCHET COACH

DELIVERABLE 2 · CHEAT SHEET

The 7 *Hardest* Techniques

The seven crochet moves that trip up 90% of beginners on baby booties — each with the shortcut version + the exact prompt to paste into My Crochet Coach when you're stuck.

VERSION 1.0 · BUYER-ONLY MATERIAL · DO NOT SHARE

How to use this cheat sheet

Print this. Pin it next to your workbench. When you hit one of these seven walls, read the shortcut version first. If you're still stuck 5 minutes later, copy the ask-the-coach prompt at the bottom of each card and paste it into **My Crochet Coach** — the app will walk you through it.

1 The Magic Ring

The starting circle that closes tight. Most beginners chain 4-and-slip instead, which leaves a hole in the sole.

1. Wrap yarn around 2 fingers, cross over.
2. Slide off carefully — you have a ring.
3. Insert hook into the ring, hook the working yarn, pull through.
4. Chain 1 to secure.
5. Work 6 sc into the ring.
6. Pull the tail to close the ring tight.

ASK THE COACH

"Walk me through the magic ring – my ring isn't closing tight and I can see a hole in the middle of my sole."

2 The Invisible Decrease

A regular decrease shows as a lumpy stitch. The invisible version is what separates a homemade-looking bootie from a boutique one.

1. Insert hook into next stitch's FRONT LOOP ONLY.
2. Without pulling through, insert hook into the following stitch's front loop only.
3. Now 3 loops on hook. Yarn over, pull through all 3.
4. One invisible dec complete.

ASK THE COACH

"My decrease is leaving bumpy stitches at the toe. How do I do the invisible version?"

3

The Jogless Colour Change

A colour change looks like a "step" or "jog" in the round if done naively. Jogless = invisible colour switch.

1. On the LAST stitch of the old colour, work sc until 2 loops remain on hook.
2. Drop old colour. Wrap NEW colour around hook.
3. Yarn over with new colour, pull through the 2 loops.
4. Continue the round with new colour. No knot needed.
5. Weave in both tails at the end.

ASK THE COACH

"My colour change is showing a visible step in the round. Fix it."

4

The Tapered Toe

A proper toe tapers down cleanly. Most patterns say "sc, sc, dec" and beginners misalign the decreases — result: a lopsided toe.

1. Place a stitch marker at the START of the round.
2. Round 1: [sc 4, invisible dec] $\times 6 = 24$ sts remaining after 30-st round.
3. Round 2: [sc 3, invisible dec] $\times 6 = 18$ sts.
4. Round 3: [sc 2, invisible dec] $\times 6 = 12$ sts.
5. The taper is even because decreases are always at the same relative position.

ASK THE COACH

"My toe is lopsided – one side taper faster than the other. Walk me through the fix."

5 The Sole Shaping (from oval to flat)

The sole is worked in the round but must lie FLAT (not curl into a cup). If it cups, your gauge is too tight OR your increases are wrong.

1. Rounds 1-6 add increases (6 per round) to widen the oval.
2. Rounds 7-9 are STRAIGHT — no increases. This lets the fabric flatten.
3. If the sole cups up: your gauge is too tight. Go up half a hook size.
4. If the sole ripples: your gauge is too loose. Go down half a hook size.

ASK THE COACH

"My sole is curling into a cup instead of lying flat. What am I doing wrong?"

6 The Stretchy Bind-Off (for the cuff)

A stretchy cuff is what stops the bootie from falling off. A slip-stitch bind-off leaves the cuff rigid — no stretch, bootie slips off.

1. Work your cuff in ribbing (FPDC, BPDC alternating).
2. On the LAST round, use hdc instead of sc — inherently taller and stretchier.
3. Finish with a single slip stitch to close the round.
4. Do NOT tighten the last stitch — leave it loose so the cuff has give.

ASK THE COACH

"My cuff has no stretch and the bootie is sliding off. Give me the stretchy bind-off recipe."

7

The Invisible Seam (mattress stitch)

When you seam two edges together (for the sole join or the strap sew-on), a visible seam gives the bootie a "homemade" look. The invisible/mattress stitch makes it disappear.

1. Thread a tapestry needle with the SAME yarn as the bootie.
2. Lay both pieces flat, right sides up, edges touching.
3. Insert the needle under the top bar of the first stitch on left, then under the top bar on right.
4. Zigzag pattern. Pull tight every 4-5 stitches — the seam vanishes.
5. Weave the tail into the wrong side and cut close.

ASK THE COACH

"My seam is showing on the outside of the bootie. Walk me through the invisible/mattress stitch step by step."

The one habit that fixes all seven

PRACTICE ON A SWATCH, NOT ON THE BOOTIE

Before applying any of these seven techniques to a real bootie, practice on a small 5×5 cm swatch. Costs you 20 minutes; saves you the frustration of unravelling half a finished bootie. My Crochet Coach can guide you through the practice swatch — just paste one of the prompts above.

BOOTIE MASTER · OTO 2 · MY CROCHET COACH

DELIVERABLE 4 · COPYWRITER MODE

Etsy Listing *Copywriter* Mode

Turn any finished bootie into a fully-optimised Etsy listing — title, 13 tags, 4-block description — in under 60 seconds. Just type "Copywriter Mode" into My Crochet Coach.

VERSION 1.0 · BUYER-ONLY MATERIAL · DO NOT SHARE

How to activate the mode

My Crochet Coach has a hidden "Copywriter Mode" that switches its response format from conversational to Etsy-listing-ready. Activate it by typing one of these:

- Copywriter Mode
- Write me an Etsy listing for [X]
- Turn this into an Etsy listing

The coach responds with a title, 13 tags, and a 4-block description — all following the SEO best practices from Bootie Boutique (OTO 1).

What Copywriter Mode gives you

Every Copywriter Mode response has this structure:

TITLE

Format: [Colour] [Style] Handmade Baby Booties · [Size] · [Occasion]

Uses the first 40 characters for maximum search visibility.

13 TAGS

4 anchor tags (baby booties / crochet baby shoes / newborn gift / handmade baby) + 9 rotation tags matched to the specific bootie style, colour, and occasion.

DESCRIPTION (4 BLOCKS)

1. One-sentence promise
2. What they get (materials + packaging + shipping)
3. Care instructions
4. Soft close (custom orders welcome)

Under 200 words total.

Examples of asking

BASIC ASK

"Copywriter Mode. Write me an Etsy listing for a pair of cream Mary Jane crochet baby booties in size 3–6 months."

WITH SPECIFIC DETAILS

"Copywriter Mode. Cream Mary Jane crochet booties, size 3–6m, cream pearl button, packaged in kraft + tissue + ribbon. Target buyer: baby shower gift for a coworker."

WITH PRICE POSITIONING

"Copywriter Mode. Sage green baby bootie set (2 pairs, different sizes) for the boutique tier – \$75 price point. What's the listing?"

FOR A BUNDLE LISTING

"Copywriter Mode. Bundle listing: cream Mary Jane + matching cream cushion cover (from Bonus 1). Baby shower gift bundle. Sizes 3–6m + 40×40cm cushion."

What Copywriter Mode is NOT

- **Not a keyword stuffer.** Tags come from the 27-tag rotation library (Bootie Boutique OTO 1) — no gaming, no spammy tags.
- **Not a paraphraser.** If you give it your own draft, it won't rewrite word-for-word. It'll produce a fresh listing following the structure.
- **Not for large batches.** Do one listing at a time. If you have 20 booties to list, that's 20 Copywriter Mode conversations, not one giant "give me 20 listings" prompt.

Making the coach's output better

THE THREE DETAILS THAT IMPROVE EVERY RESPONSE

1. **Specific colour name** — "sage green" not "green"; "warm terracotta" not "orange".
2. **Occasion/buyer** — "baby shower gift" or "first birthday keepsake" gives the coach a hook for the description.
3. **Price tier** — "survival" / "comfortable" / "boutique" from your Pricing Calculator. The description tone shifts with the tier.

Turning the response into a real listing (2 minutes)

1. Copy the **title** from the coach's response → paste into Etsy Listing → Title.
2. Copy the **13 tags** → paste into Etsy Listing → Tags (Etsy separates by comma automatically).
3. Copy the **4-block description** → paste into Etsy Listing → Description.
4. Add your photos (from the Photography Kit in OTO 1).
5. Set your price (from the Pricing Calculator in OTO 1).
6. Publish.

Iterating on a live listing

If a listing is 30+ days old with under 100 impressions, ask the coach:

THE AUDIT PROMPT

"My listing for cream Mary Janes 3-6m has only 60 impressions in 30 days. Copywriter Mode: what should I change?"

The coach will identify the most likely issue (title, first photo, tags, or price) and give you a rewritten version.

BOOTIE MASTER · OTO 2 · MY CROCHET COACH

DELIVERABLE 3 · PROMPT LIBRARY

60+ *Suggested Prompts* Per Pattern

One starter prompt per pattern in your library. Copy-paste into My Crochet Coach to get pattern-specific coaching — not a generic answer.

VERSION 1.0 · BUYER-ONLY MATERIAL · DO NOT SHARE

How to use this library

Every pattern in the 60-pattern library has a "conversation starter" prompt below. Copy the prompt for the pattern you're about to make and paste it into My Crochet Coach as your first message. The coach will walk you through gauge, materials, common pitfalls, and adjustments — pattern-specific, not generic.

THE PATTERN FOR A GOOD PROMPT

[Pattern name/number] · [what you know] · [what you want]. Example: *"I'm about to start Pattern #09 The Basic Sage Mary Jane. This is my first Mary Jane — walk me through the button strap step."*

Classic (patterns 1–8)

- 01 "Starting Pattern #01 The Simple Cream Classic. It's my very first bootie — talk me through the sole rounds like I'm 12 years old."
- 02 "Making Pattern #02 The Cottage Rose. I only have muted terracotta yarn — is that a reasonable substitute for muted rose?"
- 03 "Working Pattern #03 The Sage Classic — how do I make it look more premium for a \$35 listing?"
- 04 "Pattern #04 The Textured Cream — how do I do the bobble stitch cuff without it looking loose?"
- 05 "Pattern #05 The Ribbed Cocoa — walk me through the FPDC/BPDC alternation slowly, I always mess it up."
- 06 "Pattern #06 The Vintage Cream — how do I create the ribbon eyelets in the cuff without adding an extra round?"
- 07 "Pattern #07 The Two-Tone Classic — where exactly do I do the invisible colour change?"
- 08 "Pattern #08 The Chevron Classic — I'm scared of the chevron. Can I do it flat first to practice?"

Mary Jane (patterns 9–16)

- 09 "Starting Pattern #09 The Basic Sage Mary Jane – walk me through the button strap sewing step by step."
-
- 10 "Pattern #10 The Cream Mary Jane – what pearl button size is safe for newborns?"
-
- 11 "Pattern #11 The Rose Petal Mary Jane – how do I embroider the small flower without it looking messy?"
-
- 12 "Pattern #12 The Cottage T-Strap – the T-strap keeps twisting when I sew it on. Fix?"
-
- 13 "Pattern #13 The Vintage Mary Jane – is a 3 mm satin ribbon better than a 5 mm for the bow?"
-
- 14 "Pattern #14 The Ballet Mary Jane – how do I weave the elastic thread through the cuff cleanly?"
-
- 15 "Pattern #15 The Terracotta Mary Jane – this is my first bohemian design. What listing photo style suits it?"
-
- 16 "Pattern #16 The Ivory Double-Strap – my two straps aren't parallel after sewing. Trick?"

Sneaker/Trainer (patterns 17–23)

- 17 "Pattern #17 The Cotton Trainer – how do I make eyelets that don't stretch out after the third wear?"
-
- 18 "Pattern #18 The Sage Runner – is the sage/cream palette baby-boy-appropriate or should I switch colours?"
-
- 19 "Pattern #19 The Retro Sneaker – I've never done a 3-colour block. Walk me through the colour change order."
-
- 20 "Pattern #20 The High-Top Trainer – should I do 6 eyelets or reduce to 4 for a 3–6m size?"
-
- 21 "Pattern #21 The Minimal White Trainer – is off-white too subtle a contrast against cream?"
-
- 22 "Pattern #22 The Slip-On Sneaker – this is my fastest pattern. Can I list it as a 'weekend gift' item?"
-
- 23 "Pattern #23 The Toddler Ankle Boot Trainer – the elastic thread makes the cuff bumpy. Fix?"

Boot (patterns 24–30)

- 24 "Pattern #24 The Warm Cocoa Boot – walk me through switching hook size from 3.5 to 4 mm on the transition round."
-
- 25 "Pattern #25 The Ivory Winter Boot – where exactly do I switch from ivory to the cream cuff?"
-
- 26 "Pattern #26 The Cabled Cream Boot – I've never done a cable. Explain the stitch marker slip step."
-
- 27 "Pattern #27 The Fringed Boot – how long should the fringe be for a 3–6m size?"
-
- 28 "Pattern #28 The Ribbed Winter Boot – full-body ribbing feels tighter than the sizing chart says. Adjust?"
-
- 29 "Pattern #29 The Cream Snow Boot – I can't find faux-fur yarn. What can I substitute?"
-
- 30 "Pattern #30 The Cottage Slouch Boot – how do I make the slouch look intentional and not just too big?"

Sandal (patterns 31–37)

- 31 "Pattern #31 The Cream Summer Sandal – how do I set the ribbon tie so it doesn't come undone during wear?"
-
- 32 "Pattern #32 The T-Strap Sandal – my T is off-center after sewing. Fix?"
-
- 33 "Pattern #33 The Sage Woven Sandal – walk me through the criss-cross ribbon threading."
-
- 34 "Pattern #34 The Simple Slide – this is my fastest sandal. What price tier?"
-
- 35 "Pattern #35 The Ballet Sandal – should the ankle ribbon tie be at the front or back?"
-
- 36 "Pattern #36 The Rope Sandal – what jute-look cotton yarn brands are baby-safe?"
-
- 37 "Pattern #37 The Boho Cross Sandal – how do I sew 3 straps evenly without them shifting?"

Animal Face (patterns 38–45)

- 38 "Pattern #38 The Ivory Bear – the ears keep drooping. How do I stiffen them without stuffing?"
-
- 39 "Pattern #39 The Rust Fox – where exactly do I sew the cream face patch?"
-
- 40 "Pattern #40 The Cream Bunny – should the ears be floppy or upright for a 6–9m size?"
-
- 41 "Pattern #41 The Grey Kitten – walk me through embroidering the whiskers."
-
- 42 "Pattern #42 The Terracotta Duck – the beak looks flat, how do I make it dimensional?"
-
- 43 "Pattern #43 The Warm Fox Slipper – this is more advanced. Should I do #39 first?"
-
- 44 "Pattern #44 The Ivory Lamb – what boucle yarn works with a 4 mm hook?"
-
- 45 "Pattern #45 The Sage Turtle – the shell hexagon chart is confusing. Walk me through one repeat."

Seasonal / Holiday (patterns 46–53)

- 46 "Pattern #46 The Christmas Cream – when should I start listing this on Etsy?"
-
- 47 "Pattern #47 The Christmas Cocoa – how do I stripe the red-and-cream cuff without stopping to change colours 6 times?"
-
- 48 "Pattern #48 The Easter Cream Bunny – where do I sew the fluffy tail so it doesn't get flattened?"
-
- 49 "Pattern #49 The First Birthday Cream – walk me through embroidering the gold '1' cleanly."
-
- 50 "Pattern #50 The Baby Shower Cream – best complementary listing to pair this with in a bundle?"
-
- 51 "Pattern #51 The Autumn Terracotta – is October or November the peak listing month?"
-
- 52 "Pattern #52 The Spring Sage – the daisy embroidery is my first flower. Walk me through it."
-
- 53 "Pattern #53 The Winter Snowflake – I only have silver metallic thread, not white. Ok to use?"

Novelty (patterns 54–60)

- 54 "Pattern #54 The Ballerina Bow – is a 12 mm ribbon too big for a newborn size?"
- 55 "Pattern #55 The Cowboy Boot – walk me through the cream faux-stitching detail."
- 56 "Pattern #56 The Princess Sparkle – how do I embroider a gold star that looks even on both booties?"
- 57 "Pattern #57 The Little Sneaker Retro – this pattern is 3 colours. Order to work them in?"
- 58 "Pattern #58 The Little Espadrille – what jute-look cotton doesn't scratch baby skin?"
- 59 "Pattern #59 The Novelty Star – where do I position the star embroidery for best visibility in listing photos?"
- 60 "Pattern #60 The Signature Bootie – help me design my monogram embroidery. My initial is [X]."

Beyond pattern-specific prompts

These 60 are starters, not the ceiling. Combine and remix — for example: *"Pattern #40 The Cream Bunny in cocoa instead of cream — what colour ear tips work?"*. My Crochet Coach handles any adaptation of any pattern.

THE FIVE POWER PROMPTS

Beyond specific patterns, these five prompts unlock the most value from your coach:

1. "Which pattern from the library sells best on Etsy right now, and why?"
2. "I want to make a matching bootie + cushion set. Pick the pattern combo and explain."
3. "Turn Pattern #{n} into a premium listing — what makes it \$50 instead of \$25?"
4. "I only have {colour} yarn. Which patterns in the library work best in that colour?"
5. "What should I make next after finishing Pattern #{n}?"

BOOTIE MASTER · OTO 2 · MY CROCHET COACH

DELIVERABLE 6 · MIDNIGHT MODE

Midnight *Mode*

It's 2 am. You're stuck on round 14. You have to be up in 5 hours.

Midnight Mode gives you the next step and only the next step — so you can save your progress and sleep.

VERSION 1.0 · BUYER-ONLY MATERIAL · DO NOT SHARE

Why Midnight Mode exists

Regular crochet coaches — human or AI — assume you have unlimited attention. They walk you through gauge, three possible variations, five what-ifs, and a small history of the technique. At 2 am, that response is worse than useless — you can't retain it, you can't act on it, and you might quit the whole project because it feels overwhelming.

Midnight Mode strips the response to **the immediate next step**. 3-4 sentences maximum. No context, no alternatives. Just: do this one thing, then sleep.

How to activate

Type into My Crochet Coach:

- Midnight Mode
- It's late – quick answer only
- Just tell me the next step

The coach also auto-detects: if you type any question after 10 pm your local time AND mention being tired/stuck/quitting, it switches automatically. But you can always force it with the code words above.

Day mode vs Midnight Mode — side by side

THE QUESTION

"I'm on round 14 of Pattern #05 The Ribbed Cocoa. My last two rounds have 26 stitches but the pattern says 24. I'm exhausted."

DAY MODE RESPONSE

Interesting — you've added 2 stitches somewhere in the last few rounds. This usually happens at the join point where you close the round and start the next. Some patterns require slip stitch + chain 1 to start a new round; others just continue seamlessly, and it's easy to accidentally add a stitch when transitioning. Let me walk you through debugging: first, count how many stitches you have on each of the last 3 rounds by tracing back with a stitch marker... [continues for 8 more paragraphs]

MIDNIGHT MODE RESPONSE

Undo the last 2 rounds. Redo just round 14, counting each stitch out loud. If you end at 24, you're back on track. Fasten off temporarily with a stitch marker in the last stitch. Sleep. Come back tomorrow — the yarn will wait.

What Midnight Mode does differently

- **No teaching.** If you don't know a technique, Midnight Mode tells you to skip it for tonight, not to learn it.
- **No decisions.** If there are 3 ways to fix something, Midnight Mode picks one and gives it to you.
- **Explicit permission to stop.** Every response ends with "Save this and sleep. The yarn will wait."
- **Marks your place.** Includes a stitch-marker instruction so you can pick up tomorrow without confusion.

The three most common Midnight Mode situations

SITUATION 1 · WRONG STITCH COUNT

"Midnight Mode. Pattern #01, round 6 should be 36 sts but I have 38. Help."

SITUATION 2 · CONFUSION ABOUT A STEP

"Midnight Mode. Pattern #17 says 'sc into ch-2 space' and I don't remember what ch-2 space means. Quick answer."

SITUATION 3 · CONSIDERING QUITTING

"Midnight Mode. I want to quit and unravel this whole thing. Talk me down or tell me to stop."

What Midnight Mode won't do

- **Won't teach you a new stitch at midnight.** Response: "Save this and come back tomorrow with the pattern chart. This one needs daylight."
- **Won't debug complex multi-round errors.** Response: "Fasten off with a marker in your last stitch. Take a photo of the piece. Message me tomorrow with the photo."
- **Won't tell you if something is unfixable.** Always gives you the least-invasive fix, and if there isn't one, says "This is a morning problem" instead of "You'll have to unravel everything".

Sleep-friendly workbench setup

MAKE MIDNIGHT MODE WORK FOR YOU

- Keep **stitch markers** within reach — Midnight Mode almost always tells you to place one.
- Have a **notebook** to jot the round number you stopped on (Midnight Mode also reminds you).
- Never crochet in bed. If you fall asleep with a hook in hand, the pair is ruined.
- Set a real bedtime. Midnight Mode is a safety net, not a permission slip to crochet all night.

THE PHILOSOPHY

The best crochet is done well-rested. Midnight Mode's job is to stop you from making a bad decision at 2 am — a decision that would cost you three hours of unravelling tomorrow. If you're tired, the answer is almost always "sleep, and the yarn will wait." The coach knows that better than you do at midnight.

BOOTIE MASTER · OTO 2 · MY CROCHET COACH

DELIVERABLE 5 · YARN ORACLE

The Yarn *Substitution Oracle*

You want to make a pattern but you don't have the exact yarn it calls for. Type "Yarn Oracle" into My Crochet Coach — you get the exact substitute, hook adjustment, and shrinkage warning.

VERSION 1.0 · BUYER-ONLY MATERIAL · DO NOT SHARE

Why substitution matters

Every pattern in the Bootie Master library was designed for cotton sport-weight yarn (weight #3). But your local craft store might have DK, fingering, or acrylic instead. Getting the substitution wrong = wrong-sized booties, disappointed buyer, refund.

The Yarn Oracle mode uses the substitution table from the main product's Appendix C + the pre-wash shrinkage calibration from Perfect Fit's Yarn-Tension Guide. It runs both checks and gives you a firm answer, not a "try it and see".

How to activate the mode

Type one of these into My Crochet Coach:

- Yarn Oracle
- Can I substitute [X] for [Y] in Pattern #[n]?
- I only have [X] yarn – what patterns work?

What the Oracle asks you

The Oracle needs three things:

1. **Which pattern?** (or "any pattern" if you just want general advice)
2. **Which yarn do you have?** Brand + weight + fibre (e.g. "Paintbox Baby DK, 100% cotton, weight 3").
3. **Have you pre-washed a swatch?** (For substitutions with cotton, this matters a lot.)

What the Oracle gives you

1. **Yes/No substitution decision** — sometimes a yarn is just wrong for baby wear (rough, synthetic, unravels).
2. **Hook size adjustment** — usually up or down 0.5 mm.
3. **Pattern adjustment** — sometimes you need one fewer/more increase round to compensate.
4. **Pre-wash shrinkage warning** — 3-6% for cotton; over-size accordingly.
5. **Yarn amount adjustment** — chunkier yarn = fewer stitches per round = less yarn per pair.

Examples of asking

STRAIGHT SUBSTITUTION

"Yarn Oracle. Pattern #01 The Simple Cream Classic calls for cotton sport-weight. I only have cotton DK. Can I use it?"

FIBRE CHANGE

"Yarn Oracle. Pattern #24 The Warm Cocoa Boot – can I use a merino wool blend instead of cotton? Baby has cotton-only fabric allergy concern."

REVERSE LOOKUP

"Yarn Oracle. I only have Paintbox Baby Aran (100% cotton, weight 4). Which patterns from the library work best without adjustment?"

COLOUR LOOKUP

"Yarn Oracle. I have 3 balls of Drops Safran in 'Rust'. What patterns can I make and what's the max quantity?"

The five most common substitutions (quick reference)

YOU HAVE	PATTERN CALLS FOR	DO THIS
Cotton DK (weight 3)	Cotton sport (weight 3)	Same hook. No adjustment.
Cotton fingering (weight 2)	Cotton sport (weight 3)	Hook DOWN 0.5 mm. Pattern reads smaller — bump up one size (e.g. do the 3-6m round count for a newborn intended pair).
Cotton worsted (weight 4)	Cotton sport (weight 3)	Hook UP 0.5–1 mm. Pattern reads larger — do the newborn round count for a 3-6m intended pair.
Merino wool (weight 3)	Cotton sport (weight 3)	Same hook. Pre-wash test essential — merino shrinks more (~5-8%).
Acrylic-cotton blend (weight 3)	Cotton sport (weight 3)	Same hook. No shrinkage. But warn buyer if listing says "100% cotton".

Yarns to avoid entirely for baby booties

NEVER USE FOR BABY WEAR

- Real jute or hemp (too rough on baby skin)
- Acrylic-only above weight 3 (traps heat, sweaty feet)
- Wool with alpaca fibres (potential allergen; some babies react)
- Recycled sari silk (unravels quickly, dyes may transfer)
- Novelty "fluffy" yarn with detachable fibres (choking hazard)

Yarn shopping smart

If you're not sure which yarn to buy, run this prompt through the Oracle:

THE SOURCING PROMPT

"Yarn Oracle. I'm placing an order and want to make 10 patterns from the library – Classics + Mary Janes + one Bear. Budget \$40. Which 3 balls of yarn cover the most patterns?"

The Oracle will pick the 3 colours that give you maximum pattern coverage (usually cream + sage + one accent like terracotta or cocoa).

FOR THE FULL SOURCING KIT

Bonus 3 of the front product (Yarn & Hook Sourcing Kit) has the full shopping list under \$20, with URLs for US / UK / EU. See that first if you're building your very first supply set.

BOOTIE MASTER · OTO 2 · SECRET BONUS

DELIVERABLE 7 · UNLOCKED ONLY INSIDE THE MEMBERS AREA

The Prompt *Vault*

Thirty ready-to-copy prompts organised by your business stage — beginner, Etsy seller, boutique premium. Pick one, paste into My Crochet Coach, get high-value coaching in under 60 seconds.

SECRET BONUS · V1.0 · DO NOT SHARE OUTSIDE MEMBERS AREA

How to use this vault

My Crochet Coach can answer almost any question you type. But typing a good question takes practice — and often the best questions are the ones you didn't know to ask.

The 30 prompts below are the questions the top 5% of crocheters and Etsy sellers ask their coaches. They're the shortcut to responses that materially move your craft or your business forward. Each prompt has:

- The **exact wording** to copy (monospace box).
- A **one-line explanation** of what it unlocks.

THE COMPOUND EFFECT

One good prompt saves you 10 minutes of typing. Thirty of them over a year = the difference between "I have a hobby" and "I have a shop that makes money."

Stage 1 • Beginner (patterns 1–5)

You're learning the fundamentals. Your goal is to make 3-5 pairs cleanly.

01 The learning path check

"I've never held a crochet hook. Show me the exact order to make my first 6 patterns from the library – and why that order."

Personalises the recommended Learning Path from the Main Product.

02 The gauge diagnosis

"My gauge swatch measures 8 cm wide with 20 stitches. The pattern says 10 cm with 20 stitches. What do I do?"

Gives you the hook adjustment without reading the whole Tension Guide.

03 The technique cascade

"I've just learned single crochet. What are the next 3 techniques to learn, in the order that makes the most patterns easier?"

Sequences your learning so each new technique unlocks 5-10 patterns.

04 The confidence check

"I finished Pattern #01. Am I ready for Pattern #05 The Ribbed Cocoa, or should I do #02 The Cottage Rose first?"

The coach reads your progress and gives you a specific next-step recommendation.

05 The mistake decoder

"My finished bootie looks like [describe]. What did I do wrong?"

Pattern-agnostic diagnostic — describe the issue in your own words, get the fix.

06 The mother-of-all patterns

"Which pattern from the library uses the WIDEST variety of techniques? I want to learn a lot from one pair."

Points you at the pattern that stretches you most efficiently.

07 The pair diagnostic

"My two booties don't match — one is bigger. Both used the same yarn and hook. Fix?"

Tension-drift diagnosis (see the Diagnostic Tree in Perfect Fit).

08 The yarn-count check

"I want to make Pattern #38 The Ivory Bear. How much yarn do I need for 3 pairs across sizes NB, 3–6m, 6–9m?"

Sourcing math — buy exactly the right amount, no leftover balls.

09 The pace check

"I've been making 1 pair per week. Is that pace okay for a beginner, or should I push for faster?"

Normalises your pace so you don't compare against Instagram professionals.

10 The keep-going prompt

"I've finished 3 pairs and none of them look like the photos. Should I quit or keep going?"

Gentle honesty about the learning curve + specific 1-fix suggestion for the next pair.

Stage 2 • Etsy Seller (weeks 1–12)

You've opened a shop. Your goal is to get to your first sale, then scale to 5-10 sales/month.

11 The shop-open checklist

"I'm opening my Etsy shop tomorrow. Walk me through everything I need to have ready before I hit 'Open Shop'."

The pre-flight checklist — nothing forgotten before you go live.

12 The first-3-listings picker

"I'm about to publish my first 3 Etsy listings. Which 3 patterns from the library should I list first, and in what order?"

Strategic first listings that maximise your discoverability.

13 The listing audit

"Here's my Etsy listing title: [paste yours]. Rewrite it for maximum search visibility."

Uses the 40-character title format from the SEO library.

14 The tag diagnostic

"Here are the 13 tags I'm using on my Cream Mary Jane 3–6m listing: [paste them]. Am I cannibalising with another listing?"

Cannibalisation check across your shop.

15 The first-sale timeline

"I've been open 22 days, 4 listings live, 40 impressions, 0 sales. Should I be worried?"

Normalises the timeline + suggests the ONE thing to fix based on your numbers.

16 The ads decision

"My Etsy Ads are at \$2/day for 10 days. 8 clicks, 0 conversions. Should I keep going, adjust or stop?"

Uses the ROAS bands from the First \$50 Etsy Ads guide.

17 The first-buyer message

"I just got my first sale – [buyer name] bought [item]. Write me the perfect welcome message to send."

Copy-paste-ready message following the Repeat-Buyer Loop template.

18 The pricing raise

"I've had 5 sales at \$27. Should I raise my prices, and if so to what?"

Applies the survival → comfortable → boutique tier progression.

19 The bad review response

"I got a 3-star review saying [paste]. Write me the reply."

Uses the ARC framework from the Etsy Review Rescue Vault.

20 The photo redo call

"My best-selling listing has 200 favourites but only 3 sales. Is my first photo the problem?"

Diagnoses the click-through vs conversion gap and points at photo remediation.

Stage 3 • Boutique Premium (month 3+)

You have consistent sales. Your goal is to move up-market: personalisation, wholesale, higher AOV.

21 The personalisation launch

"I'm ready to offer personalised orders (initial, custom colour). Which pattern from the library sells best as a personalised premium listing?"

Picks the pattern with highest personalisation demand + gives you the listing template.

22 The wholesale one-pager

"Write me the wholesale outreach one-pager for a local baby boutique. My shop is [name], I make [main styles]."

Full B2B one-pager with pricing, MOQ, payment terms — copy-paste ready.

23 The bundle assembler

"I want to create a \$95 baby-shower gift bundle. Which 2-3 items from my main + bonuses combine best?"

Cross-product bundling that lifts AOV.

24 The seasonal pivot

"It's October. I sell year-round baby booties. Which 3 seasonal patterns should I list for the Q4 rush?"

Timing + selection combined into one recommendation.

25 The custom-colour intake

"A buyer just messaged asking for a custom colour bootie. Walk me through my response, from the 3 sizing questions to the price quote."

The full custom-order intake conversation, on demand.

26 The photo brand refresh

"My shop photos are 6 months old and my aesthetic has evolved. Which listings should I re-photograph first based on ROI?"

Prioritised redo list based on which listings generate the most impressions.

27 The packaging tier-up

"I want to introduce a \$75 premium tier. What packaging additions (from the Boutique Kit) justify the \$30 lift?"

Uses the Handmade Boutique Kit + Boutique-in-a-Shoebox to build a premium tier presentation.

28 The repeat-buyer sequence

"I have 40 past buyers. Design me a 4-touch sequence to reactivate them – one email each – over 3 months."

Full retention sequence customised to your history.

29 The AOV lift

"My average order is \$32. What's the fastest single change that would lift it to \$45?"

Diagnostic + specific action from the ecosystem's playbook.

30 The next-90-days plan

"I've been selling for 5 months, doing \$600/mo consistently. What's my next 90-day plan to hit \$2K/mo?"

Personalised roadmap referencing the 90-Day Roadmap + adjusting for your current stage.

How to use the vault

THE WEEKLY PROMPT RITUAL

1. Every Sunday, pick ONE prompt from the stage you're in.

2. Copy it into My Crochet Coach.
3. Read the response fully. Take notes if needed.
4. Act on it that week.
5. Come back next Sunday, pick the next one.

30 prompts = 30 weeks of directed coaching = 6-7 months of guided craft-and-business development.
Beats any subscription course.

Making your own prompts

The best prompts follow a simple pattern:

[Your situation] · [What you've tried] · [What you want]

Example: *"I made Pattern #05 and the ribbing is too loose. I tried going down a hook size but now it's stiff. I want it stretchy but snug."*

Situation → what you tried → what you want. Three parts, always. My Crochet Coach thrives on this structure.

The Monthly Video Review

Your Private Crochet Coach — Human layer

Your Monthly Personal Video Review — How It Works

This is what makes Your Private Crochet Coach different from every other AI tool in the crochet space: **a real human, looking at your actual project, once a month, every month, for as long as you own the account.** The AI handles the technical questions instantly. The human handles the aesthetic — the finish, the tension, the details that separate handmade from *handmade beautifully*.

The 3-Step Process

Step 1 — Upload your project (2 min)

Once a calendar month, log in to your members area and open the **Monthly Review** form. Upload one of the following:

- 3-5 photos of a bootie in progress or finished (natural light preferred)
- OR a short 30-60 second video walking around the piece
- OR both — the reviewer will use whatever tells the clearest story

Attach 1-2 sentences about what you want feedback on (fit, tension, finishing, styling). If you're unsure, write "anything you see" and the reviewer will do a full pass.

Step 2 — Certified reviewer records your video (within 48 hours)

A certified crocheter from our small pool picks up your submission. She records a personal Loom video — 5 minutes, calling you by name — walking through your project on screen and giving specific feedback on:

- **Fit** — is the sole/upper/ankle proportion right for the sizing you're targeting?
- **Tension** — is your gauge consistent? Where does it slip and how to fix it?
- **Finishing** — are your seams invisible? Is the bind-off stretchy enough? Are ends woven properly?
- **Next project suggestion** — one specific technique or pattern to try next based on what she saw

The video lands in your inbox with a private, non-shareable link. Yours to keep.

Step 3 — Apply and iterate (your next project)

Between reviews, use the AI Coach for daily questions. Save the review videos in a folder. After 3-4 months you'll have a documented feedback loop that would cost thousands with a private tutor.

Boundaries (so we can keep the promise)

- One review per calendar month per account. Unused months don't roll over.
- Reviews are for booties/crochet baby items only — pattern our reviewers are trained on.
- Turnaround is 48 hours from submission on business days. Peak weeks may extend to 72.
- Reviews are the reviewer's genuine feedback — she may recommend things you don't want to hear. That's the value.

How to submit

Members area → **My Coach** → **Monthly Video Review** tab → upload form. Or reply to any coach email with **MONTHLY REVIEW** in the subject line.

Why this exists

"The research on skill acquisition (Ericsson) shows the biggest predictor of mastery is not practice hours — it is the **feedback loop**. And it needs two speeds. Immediate feedback for the technical (the AI). Expert monthly feedback for the aesthetic (the human review). No app alone gives you both. That's why 68% of women who buy crochet courses never move past intermediate — they only have the first layer."

This is that second layer. For life.
