

The Sew & Sell Side-Income Blueprint™

Your 30-day plan to turn your sewing machine into your first \$1,000 in orders — alterations, custom pieces and quick-sell items, without paid ads.

What's in this folder

- **the-sew-and-sell-side-income-blueprint.pdf** — the main guide: the 30-Day Blueprint (day by day, with the \$1,000 math), the Alterations Price Menu (40 services, US prices, time, pricing logic), 12 Etsy & Facebook Marketplace listing templates + 40 keywords, the Phone Photo Studio (15 shots) and 50 DM & comment scripts.
- **printables/alterations-price-menu-printable.pdf** — the client-facing price menu: page 1 filled in with suggested US starting prices, page 2 blank to write your own.
- **printables/30-day-tracker-job-log-pricing-worksheet.pdf** — 30-Day Tracker, Alterations Job Log, Product & Custom Order Log, Pricing Worksheet, Startup & Studio Checklist.

Start here (today, 45 minutes)

1. Read Part 1 of the main guide from start to finish (20 min).
2. Print the price menu and the tracker pack.
3. Do Day 1: set your hourly rate and circle your 20-service launch menu.
4. Tomorrow, Day 2: one supply run with the \$114 startup list.

WORKS WITH YOUR SEWING PATTERN BIBLE

The pouch, tote, apron, scrunchie, pet bandana, produce bag, pot holder and napkin listings in Part 3 match projects in your **Creative Sewing Projects** bonus folder; the linen skirt and kids' dress use patterns from the main collection. Seam allowance is 1.5 cm / 5/8 in unless a pattern says otherwise.

PRINTING

- Letter or A4 paper. In the print dialog choose **100% / "Actual size"** for the printables (A4 printers: "Fit to printable area" is fine for guides, not for cards with cut lines — those fit A4 at 100%).
- Guides are made to read on screen too: tablet or computer, zoom to fit width.
- Measurements are given in cm and inches everywhere; prices in US dollars (US\$).
