

The Repeat Client Engine™

The system that turns every client into three jobs: what to send after the work, when to offer the next piece, and how to get her to send her friends.

What's in this folder

- **the-repeat-client-engine.pdf** — the main guide: the 3-Job Follow-Up System (day 1 / 14 / 45 messages for alterations clients, custom-garment clients and product buyers, text and email versions), how to measure clients + size charts, the Seasonal Wardrobe Calendar (12 months) and how to use the cards and order form, plus the Client Follow-Up Log.
- **printables/client-measurement-cards.pdf** — fill-in measurement cards for women, men and kids (2 per sheet, cut line) + fitting & order history card.
- **printables/thank-you-and-referral-cards.pdf** — 3 thank-you designs and 2 referral designs, front + back, 6 × 4 in, 2 per sheet with cut lines.
- **printables/custom-order-form.pdf** — 2-page made-to-measure order form: garment, fabric, measurements, fittings, price, deposit, sketch and terms.

Start here (2 hours, once)

1. Read Part 1 and copy the 9 text/DM messages into your phone notes.
2. Print 10 measurement cards of each type, 2 sheets of each thank-you design, 3 of each referral design and 5 order forms.
3. Add every client from the last 60 days to the Client Follow-Up Log and send what's due.
4. Mark this month and next month from the Seasonal Calendar on your wall calendar.

CARDS: PRINT SETTINGS THAT MATTER

100% / Actual size · double-sided · **flip on long edge** · cardstock 65–110 lb / 176–300 gsm. Print one test on plain paper and hold it to a window to check the front and back line up.

PRINTING

- Letter or A4 paper. In the print dialog choose **100% / "Actual size"** for the printables (A4 printers: "Fit to printable area" is fine for guides, not for cards with cut lines — those fit A4 at 100%).
- Guides are made to read on screen too: tablet or computer, zoom to fit width.
- Measurements are given in cm and inches everywhere; prices in US dollars (US\$).
