

Client Measurement Cards

Three fill-in cards — **women, men and kids** — plus a fitting & order history card for the back. Take her measurements once, sew for her forever.

How to print

- Letter paper or light cardstock (65 lb / 176 gsm), landscape, **100% / “Actual size”**.
- Two identical cards per sheet: cut on the dashed center line → two 5.5 × 8.5 in (half-letter) cards.
- For a two-sided card: print a measurement page, put the sheet back in the tray and print the “Fitting & order history” page on the back.
- A4 printers: choose “Fit to printable area”; cut on the dashed line.

How to fill

- Write in one unit per card (cm OR in). Fill the other column later if you want both.
- Card # = client initials + year + number, e.g. **JM-26-07**. Use it on the custom order form.
- Kids: write the re-measure date (3 months from today) and check it every time you quote.
- Keep the cards A–Z in a recipe box or binder; photograph each one as a backup.
