BEFORE YOU CUT

Working With Sentimental Fabric

A baby's onesie, a wedding dress hem, a parent's favourite shirt — sentimental fabric deserves a little extra care before it becomes part of a piece you'll keep forever.

FOUR RULES FOR PRECIOUS FABRIC

1.

Wash and press the fabric first so it lies flat and tucks cleanly.

2.

Cut a small test patch from a hidden seam first, never the main piece.

3.

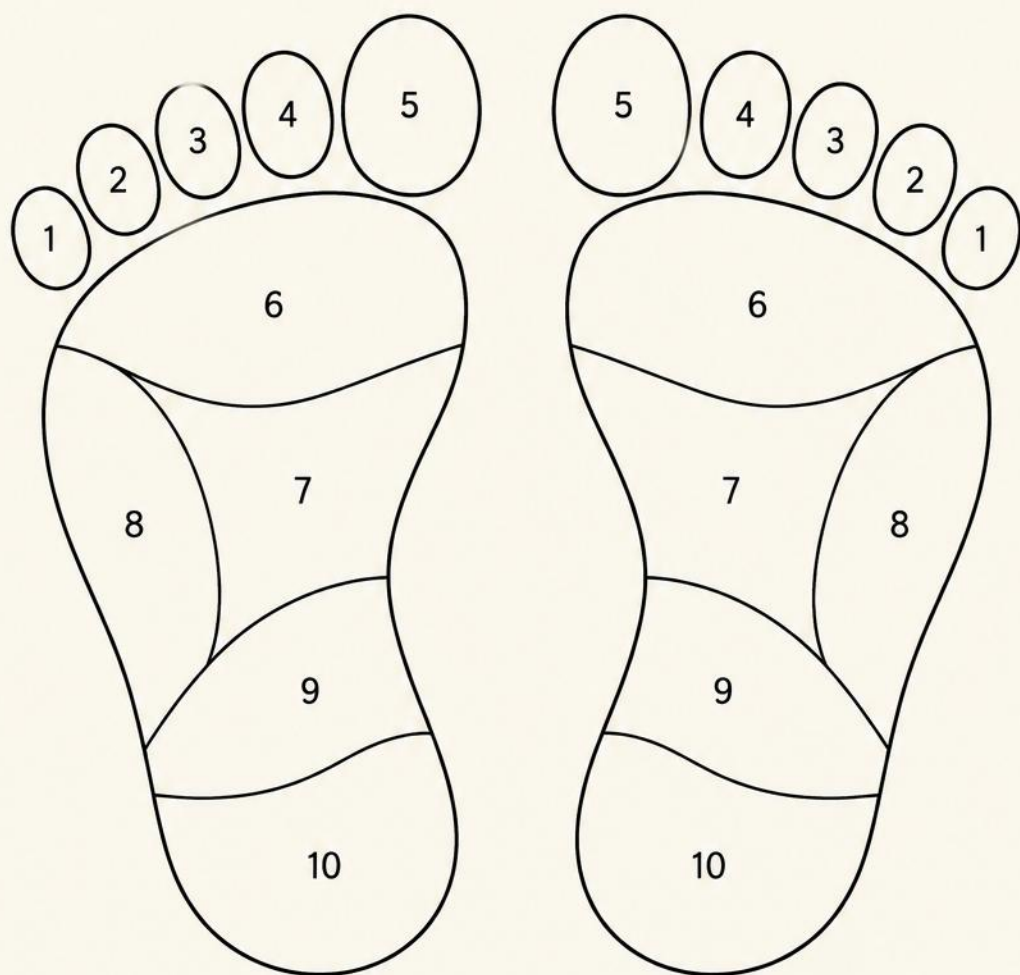

Choose a simple Easy template — precious fabric is not the place to learn a hard technique.

4.

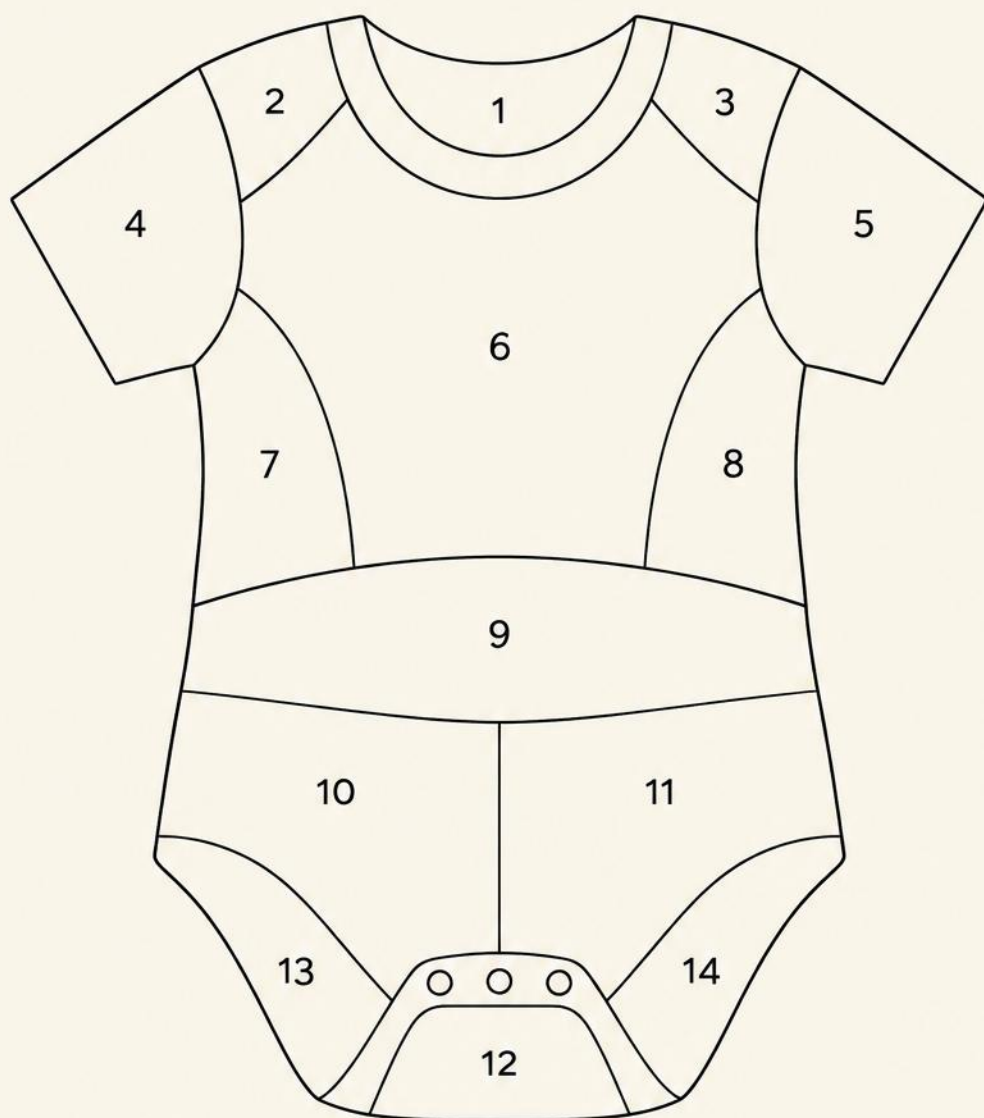

Keep every leftover scrap; a second small keepsake can come from the offcuts.
